## THE PLAN

THE PLAN is one of the most acclaimed architecture and design review on the market. For its readers, it is not only a coffee-table magazine but also a useful working tool.

The works by architectural international practices, as well as by new young talents, are selected by an international editorial committee and beautifully presented through images and technical drawings, showing the transformation from design to realization. A deep focus on architecture and avant-garde projects is proposed through this colorful magazine. Alongside in-depth architecture critical essays, The Plan features images, study sketches and constructive detail drawings with legends.

## THE PLAN Journal

THE PLAN Journal (TPJ) intends to disseminate and promote innovative, thought-provoking and relevant research, studies and criticism in architecture and urbanism.

The ultimate purpose of TPJ is thus to enrich the dialog between research and professional fields, in order to encourage both applicable new knowledge and intellectually driven modes of practice.
